CONTENT OF THE PRESENTATION!

- *About Us & History of Green India*
- *All about E-Waste.*
- *Environmental Impact of E-Waste.*
- *Green India Role in E-Waste Recycling*
- *Overview of E-Waste Recycling Process*
- *Clients' role in E-Waste Recycling.*
- *Government Regulations & Roles of CPCB & MPCB*
- *Questions and Answers.*

TRANSFORMING E-WASTE INTO OPPORTUNITIES FOR A SUSTAINABLE FUTURE!

- **Established in 2015:** Green India Recycling is an MPCB-certified, ISO 14001:2015, and ISMS27001:2005-certified E-waste recycling company based in Thane.
- **Our Mission:** We are committed to responsible e-waste management and environmental sustainability.
- **Services:** We offer one-stop compliance-supported services across India, including e-waste management, lead-acid batteries recycling, used oil recycling and office reinstatement.

Our Expertise:

- **E-Waste Management**
 - Precise dismantling and responsible disposal of electronic waste.
 - Components sent to specialized recyclers for smelting and reprocessing.
- **Used Lead-Acid Batteries Recycling**
 - Safely disposing of batteries to protect the environment and human health.
 - Preventing hazardous materials from contaminating landfills.

Together, we contribute to a greener, flourishing world by transforming e-waste into opportunities for a sustainable future   

COMPLIANCES/AUTHORISATIONS

- *Authorized by CPCB/MPCB (Pollution Control Board)*
- **ISO Certifications:**
 - ✓ ISO 9001:2015: Ensuring quality management systems.
 - ✓ ISO 14001:2015: Focusing on environmental management.
 - ✓ ISO 27001:2013: Addressing information security.
 - ✓ ISO 45001:2018: Prioritizing occupational health and safety.
- *Empaneled with Special Economic Zone (SEZ)*
- *Registered in EPR Portal of CPCB*

Green India E-Waste & Re-Cycling OPC Pvt. Ltd.
S. No. 7, Hissa No. 1/B, Post Dahisar,
Tal. & Dist. Thane

Sub: Consent to Operate under RED / SSI category.

Ref: Consent to Establish granted by Board vide No. Format 1.0/RO-HQ/UAN No. 0000154768/CE/2301001166 dated 12/01/2023.

Your application No.MPCB-CONSENT-0000162613 Dated 17.02.2023

For: grant of Consent to Operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 6 of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

- The consent to operate is granted for a period up to 30/04/2028**
- The capital investment of the project is Rs.2.25 Crs. (As per C.A Certificate submitted by industry)**
- Consent is valid for the manufacture of:**

Sr No	Product	Maximum Quantity	UOM
Products			
1	Collection, Segregation, Dismantling, Refurbishing & Recycling of E - Waste (ITEW - 1 to 27, CEEW - 1 to 19, LSEEW - 1 to 34, EETW - 1 to 8, TLSEW - 1 to 6, MDW - 1 to 10 & LIW - 1 & 2)	3000	MT/A
2	Peeling of Copper Wire	500	MT/A
3	Peeling of Aluminium Wire	500	MT/A

Using Environmentally Sound Technology as per the provisions of E-Waste (Management) Rules and Subject to having valid Registration from Central Pollution Control Board under Sub-Rule (4) & (7) of the E-waste Management Rules, 2022.

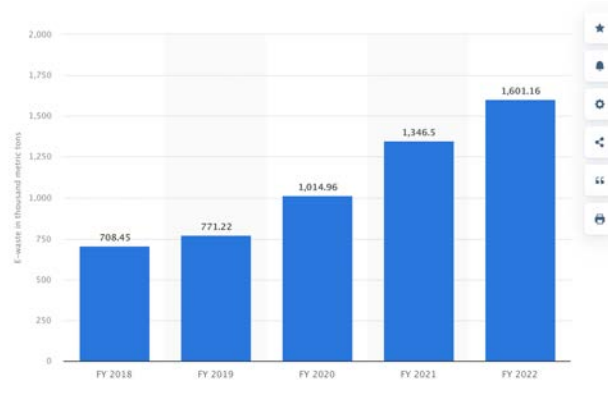

WHAT IS E-WASTE?

Definition: *If anything plugs in or takes a charge, it is a part of e-waste.*

STATISTICS ON E-WASTE GENERATION

- India generated more than **1.6 million metric tones** of e-waste in the financial year 2022 which is More than double the amount generated in 2018.
- India ranks **3rd globally** in e-waste generation, after China and USA, due to rapidly increasing Digitization and reliance on electronics.
- The study reveals that only about **6% of e-waste** is recycled of which **95%** is recycled through the informal sector.

Remember, responsible e-waste management benefits our planet and future generations!   

ENVIRONMENTAL IMPACT OF E-WASTE

- **Hazardous Substances:** E-waste contains toxic materials (lead, mercury, etc.) harmful to the environment.
- **Resource Depletion:** Improper disposal wastes valuable metals (gold, copper) found in electronics.
- **Air & Soil Pollution:** Burning e-waste releases harmful gases and contaminates soil.
- **Sustainable Solutions:** Proper recycling reduces impact and conserves resources.

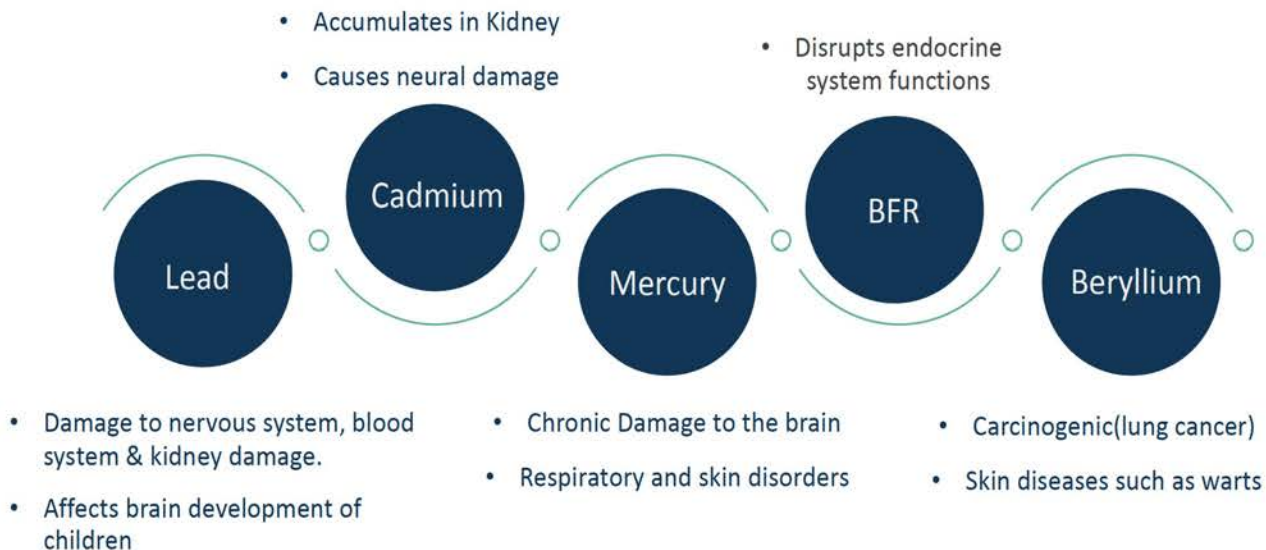

Remember: Responsible e-waste management benefits us all!   

IS E-WASTE HAZARDOUS?

Chemicals released from e-waste and its effect on human health:

- If E-waste is dumped and exposed to soil and moisture, various chemicals leaches into the environment and gradually poisons the soil making it infertile.
- Irresponsible disposal and extraction of metals by the unorganized sector has further lead to air, land and water pollution affecting the human and environmental health.

BENEFITS OF RECYCLING

HELPS KEEP TOXINS OUT OF
NATURE BY REDUCING THE
NEED FOR LANDFILL

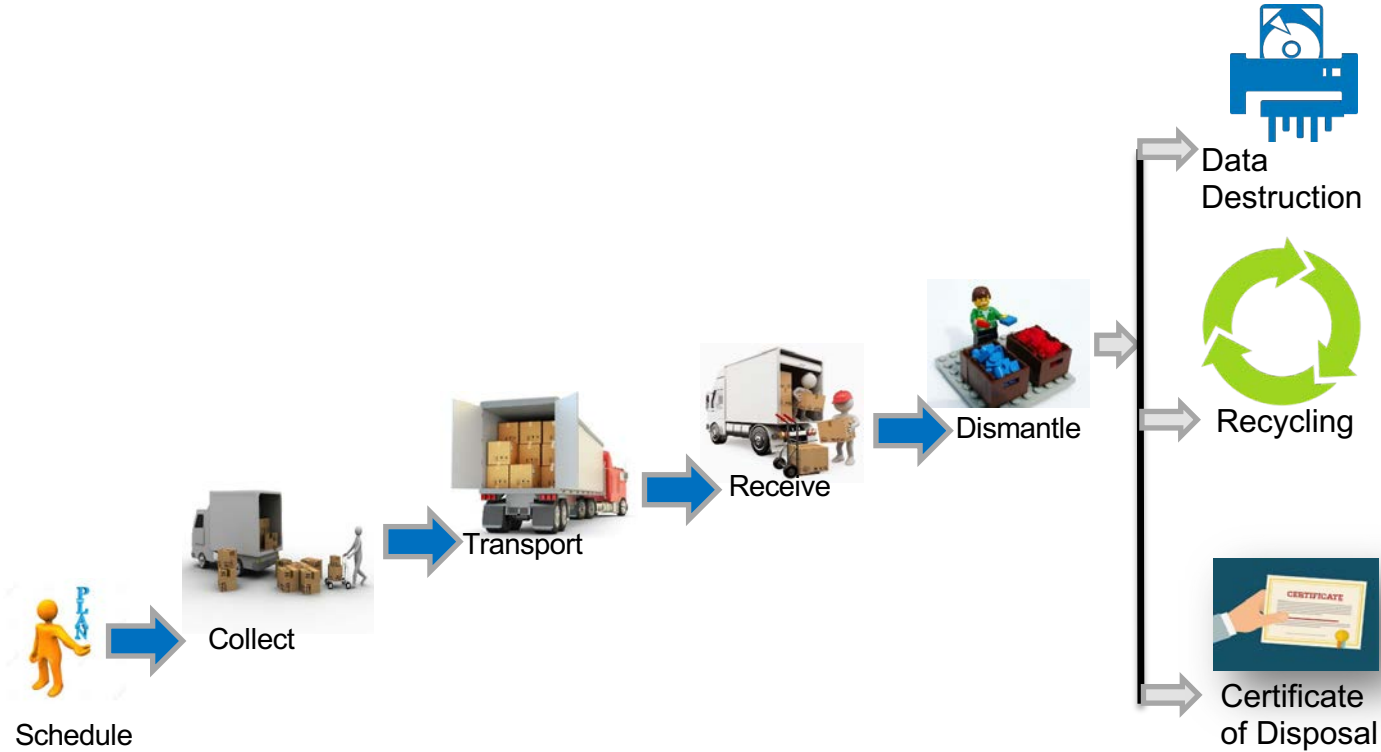

PARTS OF DISCARDED
ELECTRONICS CAN BE USED TO
MAKE NEW ONES SAVING
ENERGY AND EARTH'S
NATURAL RESOURCES

PREVENT POLLUTION BY
REDUCING THE EMISSIONS OF
GREENHOUSE GASES DUE TO
INCINERATION

SEVERAL PRECIOUS METALS
LIKE GOLD,
SILVER, COPPER, BAUXITE, ETC,
CAN BE EXTRACTED AND
REUSED

E WASTE RECYCLING PROCESS...

OVERVIEW OF E-WASTE RECYCLING PROCESS

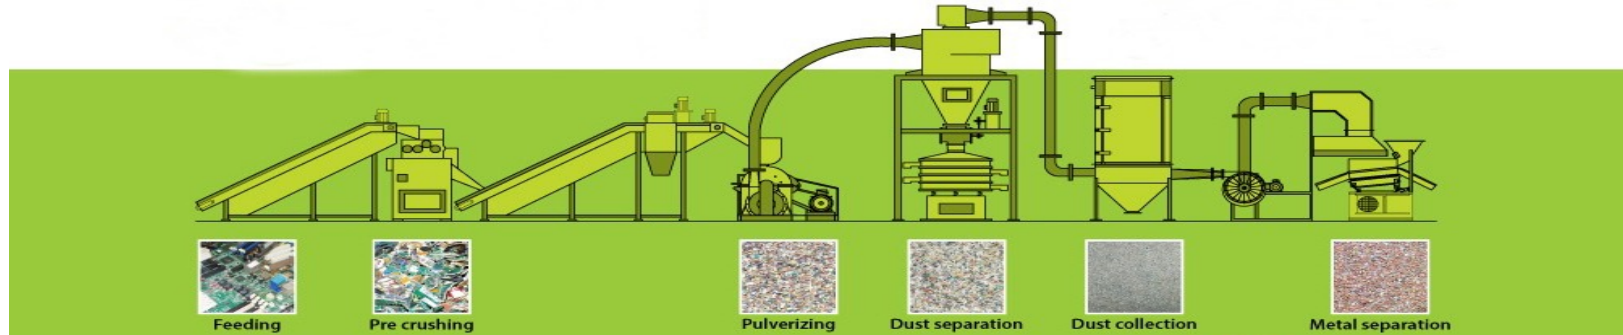

- **Collection:**
 - Devices are gathered through recycling bins, take-back programs, or on-demand services.
 - **Storage** follows until further processing.

- **Sorting & Dismantling:**
 - **Manual sorting** separates different components.
 - Devices are **dismantled** to extract valuable materials.

- **Shredding & Separation:**
 - **Mechanical shredding** breaks down devices.
 - **Separation techniques** extract metals, plastics, and other materials.

- **Resource Recovery:**
 - Valuable elements like **Ferrous & Nonferrous metal** are reclaimed.
 - Proper recycling minimizes environmental impact.

For Green India

Authorized Signatory

- ✓ *Safe Disposal:* We manage e-waste responsibly, preventing hazardous substances from harming the environment.
- ✓ *Extended Producer Responsibility (EPR):* By holding manufacturers accountable, we promote environmentally sound e-waste management.
- ✓ *Efficient Collection:* Through reverse logistics , we prevent e-waste from ending up in landfills.
- ✓ *Use of Technology:* Using technology, we facilitate dismantling, segregation, and sustainable recycling methods.

Together, we bridge the gap between responsible disposal and resource conservation, contributing to a greener future. 🌍🌱

CLIENTS' ROLE IN E-WASTE RECYCLING.

Clients, whether individual consumers or bulk consumers, play a **significant role** in e-waste recycling according to the guidelines of the **Central Pollution Control Board (CPCB)**. Here's how they contribute:

- **Responsible Recycling:**

1. **Individual Consumers:**

1. Repair and reuse electronic devices whenever possible.
2. Participate in e-waste collection drives.

2. **Bulk Consumers** (such as businesses or institutions):

1. Implement efficient e-waste management practices within their organizations.
- Collaborate with authorized recyclers for proper disposal.

- **Compliance with Regulations:**

1. Clients must follow the **E-Waste (Management) Rules, 2022**
2. Ensure that e-waste collected is stored securely until sent to authorized recyclers like Green India.

By actively participating in responsible e-waste management, clients contribute to a cleaner environment and sustainable resource utilization. 

CPCB (Central Pollution Control Board)

- **Formulation of Rules:**

1. The CPCB plays a pivotal role in **formulating and enforcing national regulations** related to e-waste management.
2. They ensure that guidelines are in place for the **safe handling, collection, transportation, and recycling** of electronic waste.

MPCB (Maharashtra Pollution Control Board)

- **State-Level Implementation:**

1. The MPCB operates at the **state level** and aligns its activities with the CPCB's guidelines.
2. They oversee e-waste management within **Maharashtra**, ensuring that local regulations complement national rules.

- **Authorization and Monitoring:**

1. The MPCB **authorizes and monitors e-waste recyclers, dismantlers, and collection centers** within the state.
2. They ensure compliance with safety standards and environmental norms.
